Hampshire Conservation Plan 2026

Targets

With only 7 breeders it can be difficult to keep good numbers of each line but the breed priorities need to be:-

1. Encourage breeders to consider the Black Lady and Norma lines and get some moved from N Ireland to England
2. Keep an eye on the Judy line
3. Encourage the use of Peterbilt, Route and Southern Style boars
4. Breed rep to convene a meeting of Hampshire breeders as soon as possible
