We are breeding a Large White Prince boar from privately held frozen semen after the boar in Yorkshire failed to produce any progeny. A highly unrelated Welsh Leo boar has been identified. Both of these will be added this year so that all the lines will have been collected during the RBST 50th Anniversary year. We also hope to have the remaining 5 boars selected this year to bring the Berkshire, Middle White and Oxford Sandy & Black breeds up to 10 boars each by the Spring of 2024
