

# BPA Breed Survey 2020 Instructions for on-line survey

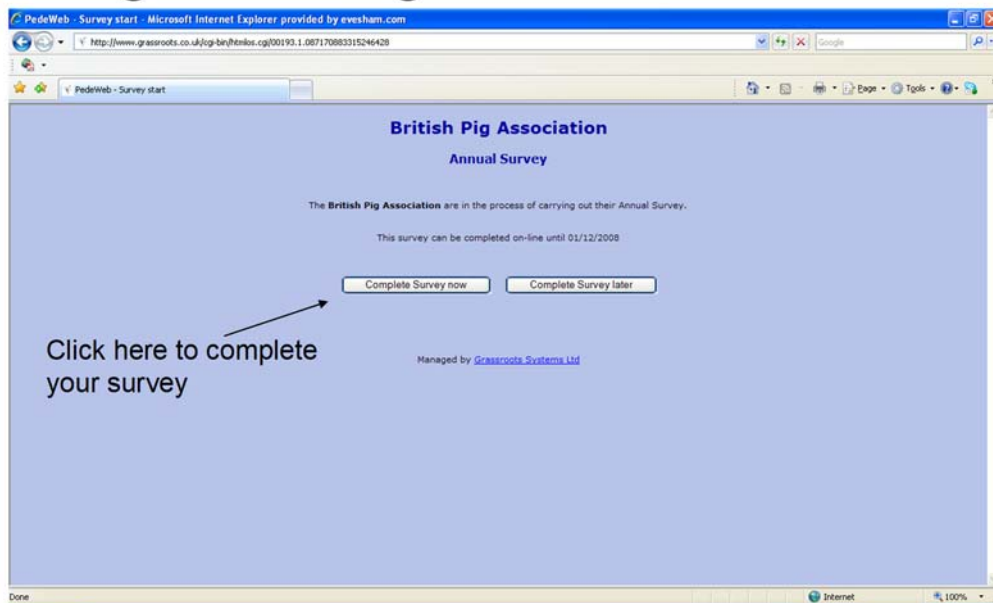

We need your help to update our records and get an accurate figure for the population of your breed.

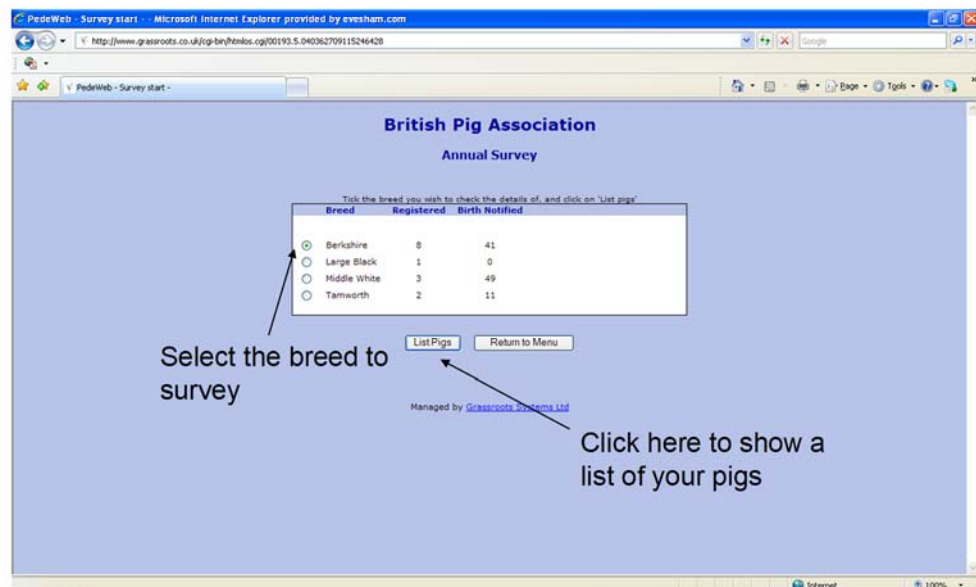

It is important that we know the size of the population but we also have to know how many pigs there are in each line within the breed. This information can then be used to by our Conservation Committee to design conservation breeding programmes. It is no use identifying the rarest sow so that she can be put into a contract breeding programme if it turns out that she is already dead.

Filling out your survey on-line is quick and easy and avoids the risk of forms being lost in the post. By completing the survey you are taking part in a conservation programme which has been running for over 30 years and has saved our native pig breeds from extinction.

## Log on through the members area

## Select breed and display your pigs

# Every pig must be ticked

**British Pig Association**  
Annual Survey - Registered Pigs

Tick all pigs as alive To 'tick' all the pigs listed as 'alive', click on this box, you can then tick the pigs which are dead or have been sold

Every pig **MUST** have a tick in one of the 3 columns

When complete click on the 'Next Page' button at the bottom of this page

Click on appropriate heading to change display order, click again to reverse the order

DOB	Sex	Rea. No.	Name	Ear No.	Alive In herd	Dead/ Cull'd	Sold for breeding
14/01/2000	M	HGW/363	Moorsholm Peter Lad 11	HGW/363	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
